**“ DAY OR NIGHT
WE GET THE JOB DONE RIGHT ”**

DID YOU KNOW?

70-80% of dirt and dust comes in the front entryway - Pro-Sweep can help!

A regularly scheduled sweeping program for your parking areas, streets and sidewalks will help you maintain a fresh, clean appearance for your property while prolonging the life of your pavement and striping.

Affordability

Our efficiently managed operation means affordable prices, without compromising the highest standards of performance. We have crews all over the valley, day and night, that allows flexibility in our scheduling and we can pass that savings on to you. Sand, rock and debris act as an abrasive. Removing this material on a regular basis assists in preventing potholes, cracking and striping erosion, thereby delaying costly resurfacing expenses.

Pro-Sweep Philosophy

As you might imagine since starting in 1987 we have gained extensive knowledge in how to do power sweeping right. Our experienced sweeping team knows how to provide you with state-of-the-art service and technology. We will provide you with a comprehensive job proposal prior to sweeping based upon your specific needs. Pro-Sweep believes each customer deserves the best and that's why we guarantee all of our work.

Environmentally Safe

Power sweeping is a proven environmentally safe way of removing large and small debris from your parking areas. Having a lawn crew blow an entire property can result in fines from air quality inspectors and may produce complaints from your customers. We only blow hard to reach areas and then sweep away all the debris and harmful particulates leaving behind a clean, fresh environment for your clients.

Serving:

- Apartment Communities
- Homeowner Associations
- Universities and Schools
- Retail Shopping
- Industrial Complexes
- Restaurants
- Offices Centers
- Hotels and Resorts
- Churches

Steam Pressure Washing

Pro-Sweep's steam pressure washers deliver a concentrated jet of pre-heated soapy water at 3000 psi. This blast removes stains, gum and dirt from your entryways, sidewalks, columns, dumpster enclosures, patios and other areas. We know how important it is to provide a clean, esthetic environment that will lure potential customers to your property. Regular pressure washing will help you achieve that goal.

Dependable Service

From nightly service to a one time clean up you can count on our team to respond promptly and professionally. We train our operators to exceed industry standards. Pro-Sweep has day and night supervisors on duty 24/7 to assure quality and to respond to your special requests. We are one of the largest property maintenance companies in Arizona for this reason: *We are totally committed to your satisfaction.*
